

# OFFICE SPACE FOR RENT

## JOIN OUR SHARED WORKSPACE/STUDIO IN NORDHAVN

The art collective FUKK (Forenede Uæfhængige Københavnske Kunstnere) is opening its beautiful 135m<sup>2</sup> studio up to provide personal workspaces from **1st November 2019**.

We've created a new upstairs office in our shared studio with 4 workspaces that can be tailored to your needs. The studio offers you a relaxed work environment during the day, access to our collective

event space and to a community of other folks pursuing their individual work and collaborating on passion projects - in a unique professional & collective studio/workspace.

With a personal workspace at FUKK you can both focus on your own work and/or take part in FUKK's collaborative events and projects.

- ✓ A newly installed kitchen shared with the larger community of PB43
- ✓ A sound system, lively social group and underground artistic events and parties

Renting a workspace with FUKK gives you access not just to FUKK's facilities but to the larger community of PB43. PB43 is a true gem, and a creative community housing the studios of visual artists, architects, cycle-makers, designers, musicians, dressmakers, permaculturists, DJs, giant wooden trolls, and so much more! Also, we've got a sauna.

**NOTE: If you're interested in being a part of the FUKK art collective, but don't need your own dedicated workspace, you can contact us for further information. FUKK loves you!**
