

FUKK IS LOOKING FOR NEW MEMBERS

Join our shared workspace/studio in Nordhavn

FUKK is a diverse international collective of artists and creatives representing a broad spectrum of disciplines.

As a member you will be a part of a community pursuing both individual work and collaborating on collective projects such as exhibitions, festivals, concerts, installations, workshops, commissions, film nights, etc. We get together and eat, discuss, learn, develop and play along different themes. We are looking for new community members who would be excited to contribute to these activities. See some of our work at www.fukk.dk.

FUKK's activities are determined entirely by its members and the most necessary qualification for membership in FUKK is a passion for collective creation. This means that as a FUKK member you are not only a student but also a teacher, organizer and administrator of the collective (also defined as a self-organized art school).
